

Mathematical methods in QA of higher education

Prof. Francesco De Pretis, Ph.D.

Università degli Studi
Link Campus University (Rome, Italy)

1. WHO AND WHY ?

A mathematician participating the QA of his university

The Bologna Process Survey Project

- organized by Link Campus University with other Rome university (Sapienza, Tor Vergata, Roma2)
- funded by the Italian Ministry of University

2. THE PROGRAM OF THE LECTURE

2 lessons will be dedicated to what kind of mathematics is behind my research (with ties with INET and ongoing discussion over modelling in social sciences)

2 lessons will deepen in some ideas over QA of higher education.

3. INSTRUCTIONS FOR TODAY

No formulas (today)! *The talk is thought for a broad audience: everybody is invited to join and discuss (also tomorrow).*
